

2KVIZ STUDIO

'a special mix of
technology and art'

WHO WE ARE? WHAT WE DO?

Our team consists of professionals strongly related and dedicated to architectural visualization. We are architects, CG artists, and software engineers with artistic and technical backgrounds.

Your projects are illustrated in the most beneficial and effective ways through our professional and artistic vision developed as a result of our vast experience in Archviz industry.

We have completed visuals for projects in various scales and types, from small scale meticulously detailed architecture projects to big master plan concepts.

OUR WORK AND PRICES

Below you will find some examples of our work and price spectrum based on the project complexity and scale. We also provided some information on the completion time of each project.

More on our updated site:
